## Application

DMC model pulse mono-pouch dust catcher is made based on the domestic and foreign advanced technology and further design optimization. It has features of fine effect, high efficiency, long life span, easy maintenance, safe operation etc. it can be widely used in purification of all types of crushing and screening equipment.

## Features

1. Advanced technology, clean downright and low resistance during running.
2. Spare parts are in good quality so that it can ensure the high efficiency of dust cleaning.
3. Automatic controller, convenient for maintenance and high efficiency for running.

## Specification

Model	Wind capacity (m <sup>3</sup> /h)	Filtration area (m <sup>2</sup> )	Wind filtration speed (m/min)	Bag number (strip)	Running resistance (pa)	Thickness of feeding (mg/m <sup>3</sup> )	Thickness of exit (mg/m <sup>3</sup> )
DMC-32	1500-2100	24	1-1.5	32	≤1200	<200	<50
DMC-48	2100-3200	36	1-1.5	48			
DMC-64	2900-4300	48	1-1.5	64
